DuraPrint is the safe & user-friendly solution to your laser ID needs!

Introducing the newest addition to Precision Dynamics Corporation's complete family of print-on-demand, bar code identification solutions. New DuraPrint Laser Patient ID System enables you to print a patient wristband and labels in one simple step with your existing laser printer.

The patented design provides flexibility and durability.

- No laminate overlay on wristband:
 - streamlines patient identification process
 - improves patient comfort and scanning
 - eliminates clumsy application, puckering, and water seepage
- Wristband and labels resist moisture, alcohol and hand sanitizer to preserve patient data and bar codes
- Dual closure feature on wristband allows you to choose tamper-evident **adhesive closure or snap closure**
- DuraPrint "X-Hole" pattern **allows you to print along the entire length of the band**
- Accepts linear and 2D bar codes
- Standard healthcare file hole locations to fit patient charts
- Unique sheet design makes it easier to remove labels and wristband, while helping prevent paper jams

Comes with 4 colour code tags as alert indicators
